## Objective

---

I'm a 20-year-old Master's student from France with a strong passion for securing internet communications, networks, and cloud systems.

I'm determined to specialize in cybersecurity and broaden my expertise by pursuing a PhD in Japan or South Korea.

I'm particularly interested in working for R&D-focused companies like Nintendo, where cloud technology plays a major role.

## Education

---

### M.S. Cybersecurity and E-health

Sep. 2024 – in progress

Paris-Cité University

Paris, France

- System and Network Security, Advanced TCP/IP networks, Cryptography, Artificial intelligence
